Definition and use of the eco-contribution

What is an eco-contribution?

The eco-contribution is part of the price of a new product: its amount offsets the cost of waste management. It is set up by the sector's eco-organisation, on behalf of the producer members.

It notably covers:

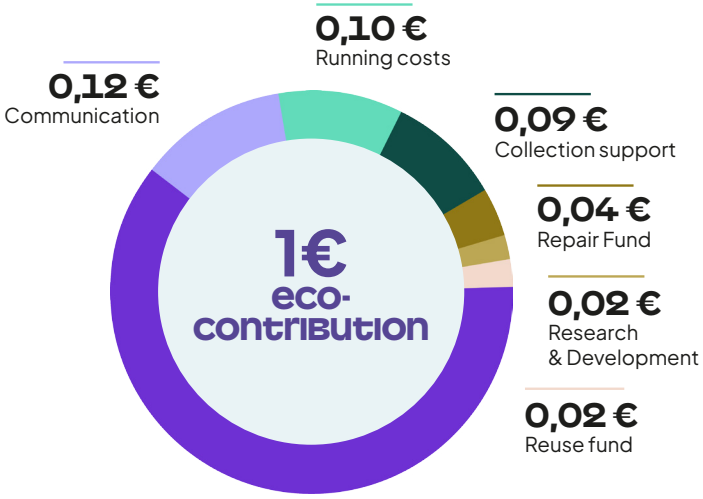
- **Waste collection and removal**
- **Decontamination and treatment**
- **Product recovery: reuse, repair, recycling…**
- **Awareness-raising initiatives**
- **Monitoring and compliance**

How is it calculated?

The amount of an eco-contribution is not calculated arbitrarily : it ties to the budget Ecologic needs to cover the end-of-life management costs of products, in accordance with the specifications set by the State.

What is it used for ?

USE OF €1 OF ECO-CONTRIBUTION PAID:



WHO, WHAT, WHEN to report?

Who has to report?

The market operator

It is always the first company that places a product or equipment on the market that bears the responsibility and the obligation to file the declaration and to pay the eco-contribution.

Who is it?

To find out who holds this role, ask yourself the following question: “Which is the first company to invoice the article on French soil, with VAT?”

What to report?

As a member of Ecologic, you must report each year **the quantities of products placed on the market in France, for the ABJTh.** The declaration therefore corresponds to the **number of units** of products placed on the market **per fee code**, for the **elapsed period.**

- ✓ Products covered by the Environmental Code sold in mainland France and in the DROM-COM1 must be reported
- ✗ Products exported abroad shall not be reported

note

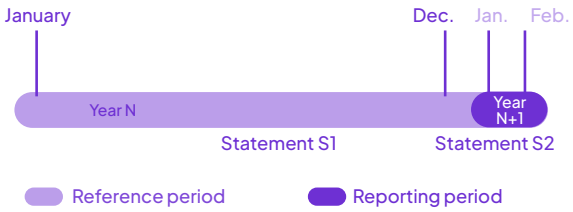
If your foreign supplier handles the declaration of the articles it supplies to you, do not include them in your own declaration

When to report?

Reporting frequencies differ depending on the quantity placed on the market that you report for the past period.

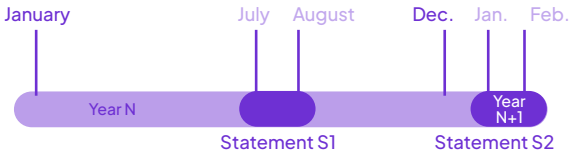
CASE 1

You place **less than 5 tonnes** on the market per year: your **reporting** frequency is **annual**



CASE 2

You place **more than 5 tonnes** on the market per year: your **reporting** frequency is **biannual**



HOW to report?

How to file-in the declaration?

The Producer Extranet: a dedicated tool

Ecologic provides you with a tool specifically dedicated to your declarations: the Producer Extranet.

Your personal space will let you:

- Manage your account
- Submit your declarations of products placed on the market
- View the history of your declarations and invoices
- Download your membership certificates
- Access the documentation provided: declaration help guide, eco-contribution fee list, declaration tutorial...

note

With Ecologic, you can also file your declarations for EEE (Electrical and Electronic Equipment), ASL (Sports and Leisure Articles), furniture, and LMT batteries (Light Means of Transport).

The information required

The information to be provided varies depending on the eco-contribution scheme you use.

Declaration based on the standard scheme, with modulations:

- Producer status
- Fee code (to identify on ABJTh standard fee list)
- Quantity of products placed on the market
- Unit weight of the product

Declaration based on the simplified scheme:

- Producer status
- Fee code (to be identified on the simplified fee list)
- Quantity of products placed on the market

note

If the applicable modulation criteria cannot be justified, or in the event of doubt, the least favorable eco-contribution must be applied.

Entry methods

You have two options to file your declaration:

Manual mode : you enter your data and information manually in your personal space

File import : you can download a “Template” file from the “Declaration” section of your personal space. This entry method is recommended if you have many lines to declare.

notice

The annual minimum charge is 200€ excluding VAT*

The Eco-Fee amount corresponds to the costs of repair and reuse, as well as the operational costs of collecting, sorting, recycling, and recovering used and end-of-life equipment.

Ecologic provides a simplified price list without any notion of weight or modulation. This simplified price list is reserved for producers who sell small quantities of ABJ Th.

* A minimum flat-rate financial contribution is provided to cover the administrative costs of reporting, invoicing and relations with ADEME.

note

Ecologic may ask the member to complete its declaration with the standard price list if the declared tonnages in the simplified mode **exceed five (5) tons.**

maintenance of trees, shrubs, hedges

SUB FAMILY	EQUIPMENT	CODE	ECO FEE € EXCL. VAT / PRODUCT
Vegetable shredder	Vegetable shredder	TBRVG00000S	50 €
Log splitter	Log splitter	TFNDB00000S	67 €
Hedge trimmer	Hedge trimmers without extension pole	THAIE00000S	3 €
	Hedge trimmers with extension pole	THAIP00000S	3 €
Sprayer - Atomiser	Sprayer - Atomiser	TPULV00000S	3 €
Wood saw	Wood saw	TSCIB00000S	42 €
Vacuum - Blower	Blower with shredder function	TSOFB00000S	5 €
	Backpack blower	TSOFD00000S	5 €
	Hand blower	TSOFM00000S	5 €
Chain saw	Chain saw	TTROS00000S	3 €
	Pole saw - Pruning pole	TTROP00000S	3 €
Complementary products	Vacuum kits, harnesses, other complementary products	TAANX00000S	0,10 €
Other consumables and accessories	Shredder blade	TAZCB00000S	0,10 €
	Chain for chain saw	TAZCT00000S	0,10 €
	Other consumables	TAZDV00000S	0,10 €
	Chain saw guide	TAZGT00000S	0,10 €
	Saw blade	TAZLS00000S	0,10 €
